Product Description

In this statue Kamadhenu or the wish granting cow is presented feeding her calf with milk. Kama means desire and dhenu means milk. She is the depiction of purity, fertility and motherhood. She emerged as one of the nine jewels or Navaratna from the ocean floor during the churning of the ocean floor. A cow is an endless giver of resources, and is the mother of mankind. Her milk formulates life in many creatures, her dung is used to create fuel and used as bricks in rural India, her urine is used as medicine and her skin even provides us cloth after her death. Cows are the perfect representation of a mother who sacrifices their whole life for their children and family. In this statue lord Ganesha is presented inside her body. So bring this statuette home to spread the message of love, sacrifice and harmony.
